

MAINTAINING A BALANCED DIET OF SAFETY, SEALED AND SANITIZED

Docks, doors and seals in food processing do more than provide crucial points of delivery and entry. The best ones—and the best-maintained ones—ensure precise temperatures are sustained, rooms stay sanitized, workers are safe and food contamination stays out. Proactive maintenance planning from MINER keeps equipment performing at high levels for your food processing, bottling and beverage operations.

Foodborne illnesses cause about

48 MILLION

illnesses annually¹

Structural vulnerabilities in opening, gaps and poor sealing can let in pathogens like Salmonella and E. coli¹

Air contamination can settle on food products, processing lines, conveyors and packing surfaces.

With MINER, you can:

Raise safety and security standards for your company and employees

Monitor your equipment to ensure its safety and defenses against pathogens

Reduce unplanned maintenance by as much as 50%

Reduce repair expenditures, lost productivity and product loss

Doors, docks and seals that perform at less than 100% at a **food processing facility** don't just affect uptime and worker safety. It increases the risk of contamination of the food and can hit your reputation too. Whether you need it from us, need it installed or need it maintained and repaired, MINER is focused on maximizing the products you rely on most in your facility.

High-Speed Wash Down Doors ▶ Designed for frequent cleaning and moisture resistance

Cooler/Freezer Doors ▶ Maintain cold-chain integrity; reduce frost/ice buildup

Bug/Pest Prevention Doors or Vinyl Strip Curtains ▶ Reduce contamination risk

Dock Seals/Shelters With Tight Environmental Control ▶ Prevent outside air infiltration

Dock Levelers and Restraints (Food Grade) ▶ Stainless or sealed designs

SafeACT

Proactive Maintenance Plans

Create an ideal environment for loading docks, doors and more where safety comes first, leaving the best impression on your teams and customers.

SafeACT is MINER's comprehensive process that helps keep every aspect of your facility operating at peak effectiveness and efficiency.

Step 1:

Complete Maintenance Checklist

- Mechanical, electrical and safety inspection
- Inspect weather seals, dock bumpers and control boxes
- Adjust springs, spring tensions and limits, door balances and loading dock lips
- Dock pit cleaning and lubrication on all equipment
- And more

Step 2:

Review Results and Recommend a Solution

Our facility experts evaluate the findings and outline a clear plan of action to address immediate repairs and safety concerns. Plus, schedule recurring proactive maintenance visits to maximize ROI, reduce downtime and extend equipment life.

Step 3:

Perform Service and Repairs

Our expert technicians arrive in fully stocked MINER trucks, equipped with the parts needed to resolve 80% of issues on the first visit. This ensures efficient, high-quality service every time, backed by a 1-year warranty on parts and labor.

Proactive maintenance that keeps you ahead. Choose SafeACT for:

Dock Equipment

Industrial Doors

High-Speed Doors

Material Handling Equipment

Warehouse Safety Equipment
